Vertical HR segment: Business model

- The Vertical HR segment consists of domain-specific HR businesses (job search platform and job placement).

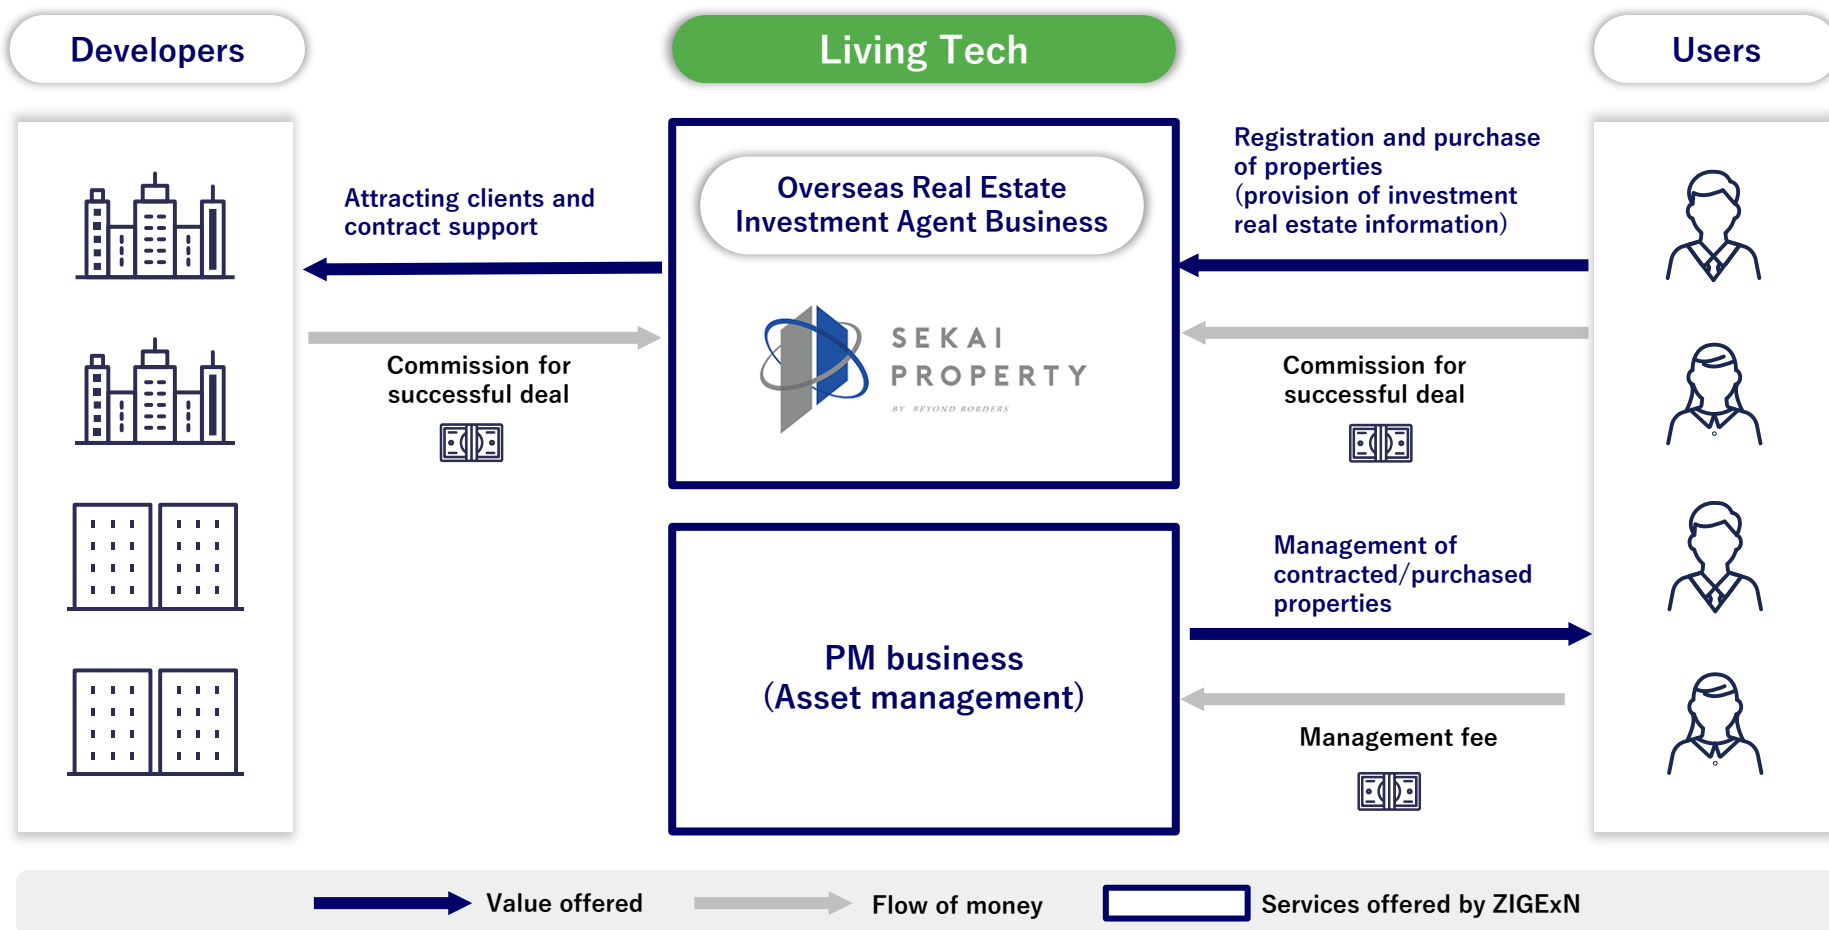

Living Tech segment: Business model

- The Living Tech consists of (1) "Aggregation platform", which allows users to search and apply for information from multiple websites at once, "Specialized platform", which have their own direct clients, and (2) the real estate investment agent business, which introduces properties mainly in Southeast Asia to wealthy individuals in Japan.

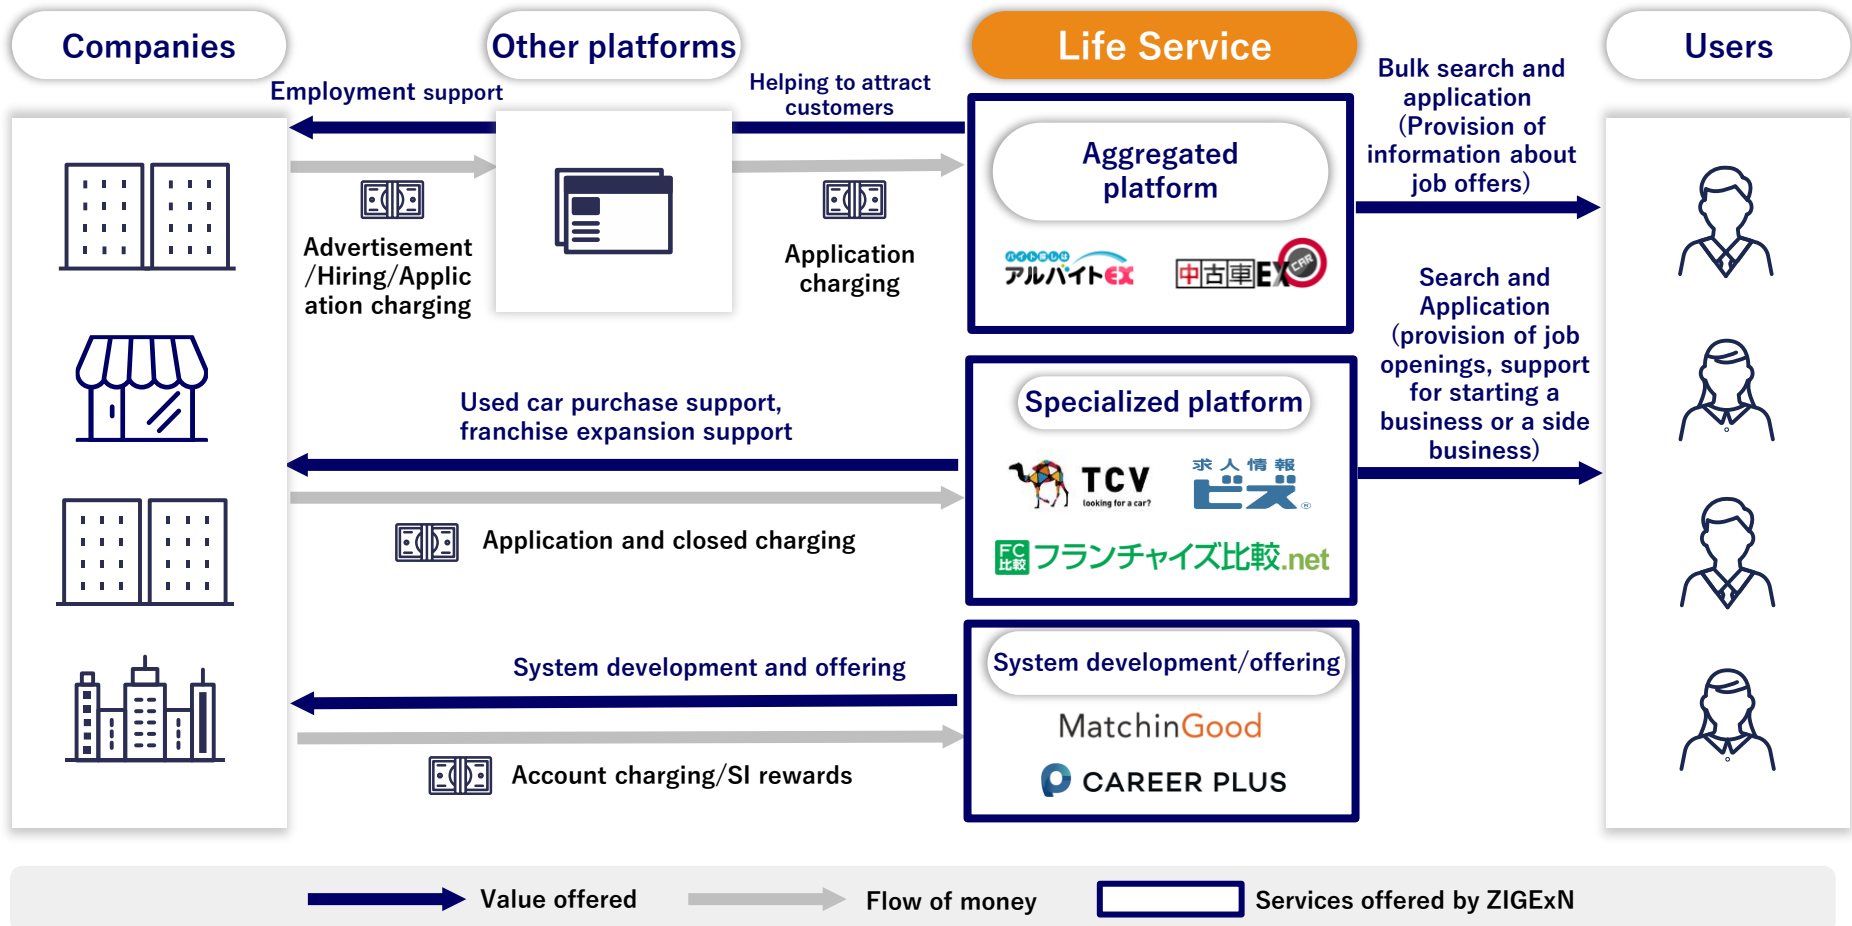

Living Tech segment: Business model (2)

- The Living Tech consists of (1) "Aggregation platform", which allows users to search and apply for information from multiple websites at once, "Specialized platform" and "Business Support Tools", which have their own direct clients, and (2) the real estate investment agent business, which introduces properties mainly in Southeast Asia to wealthy individuals in Japan.

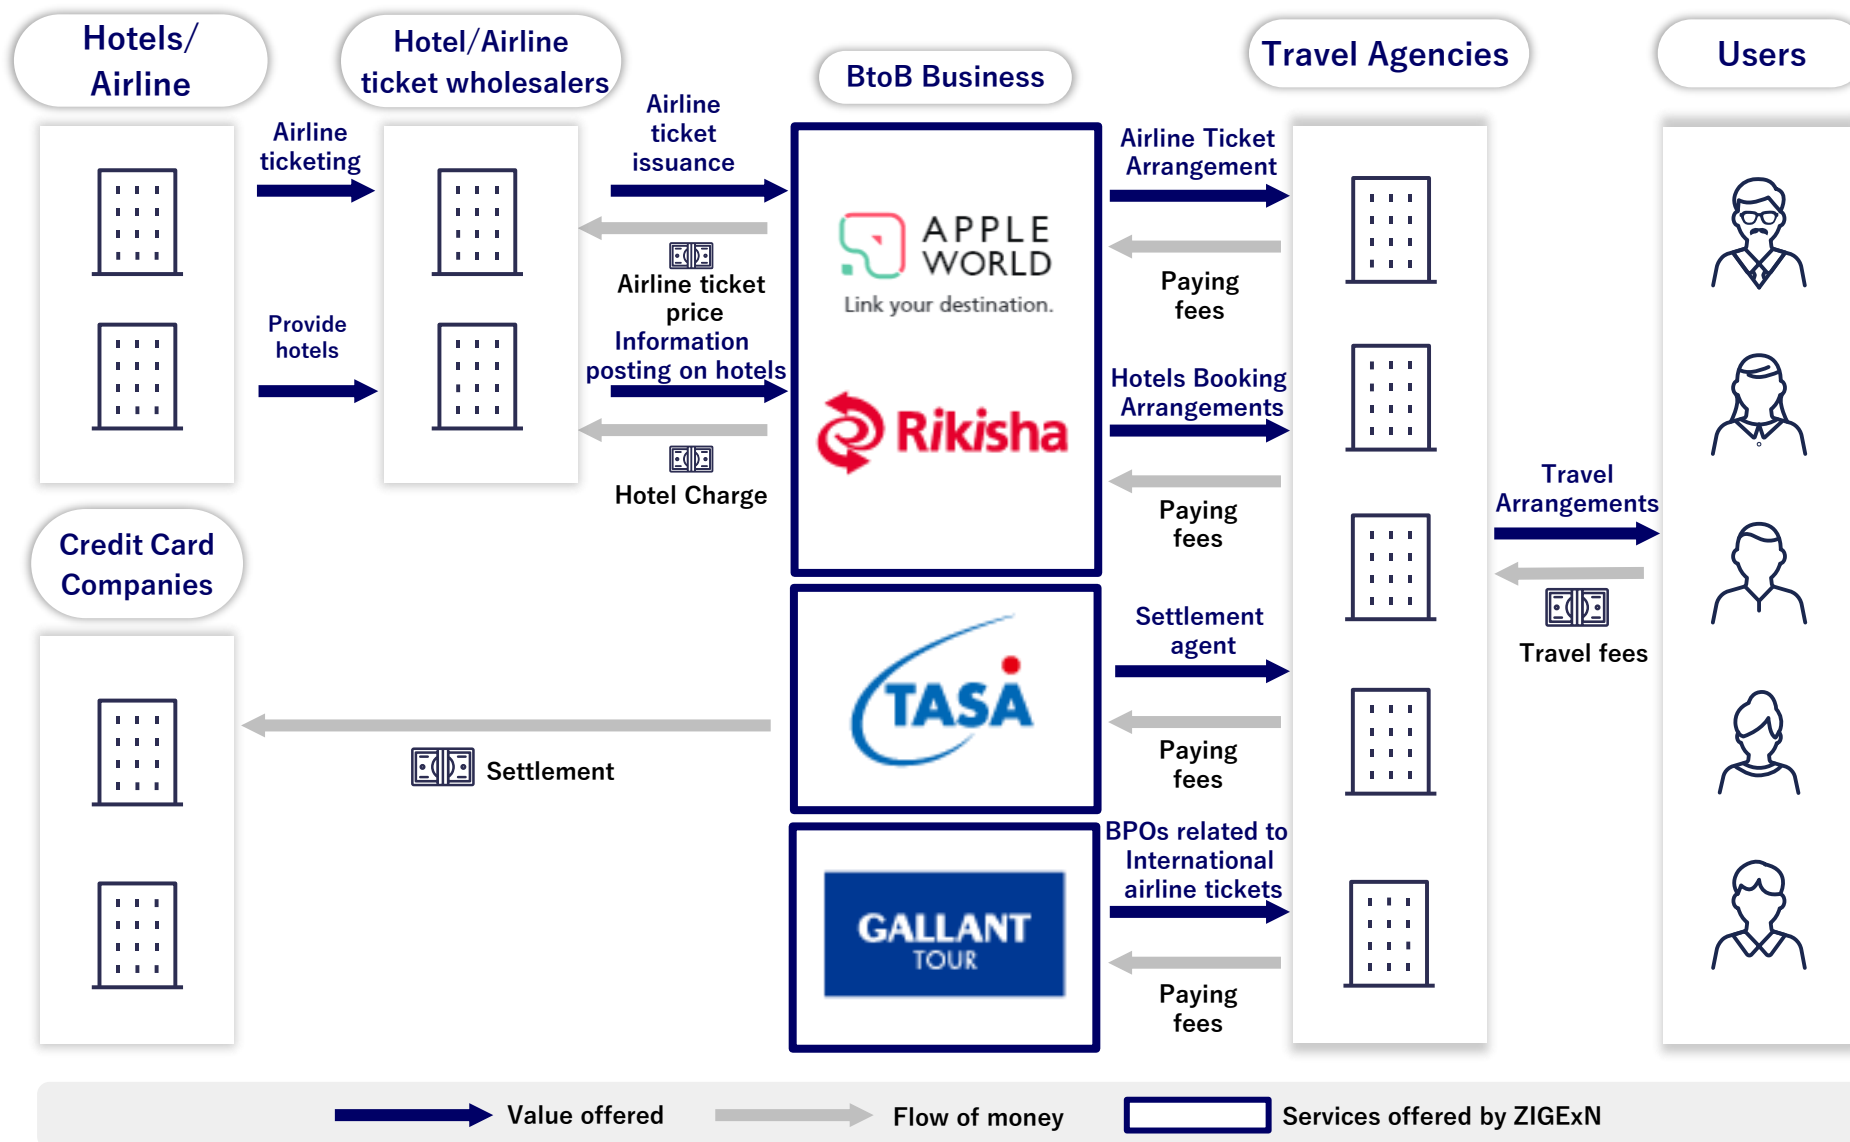

Life Service segment: Business model (1)

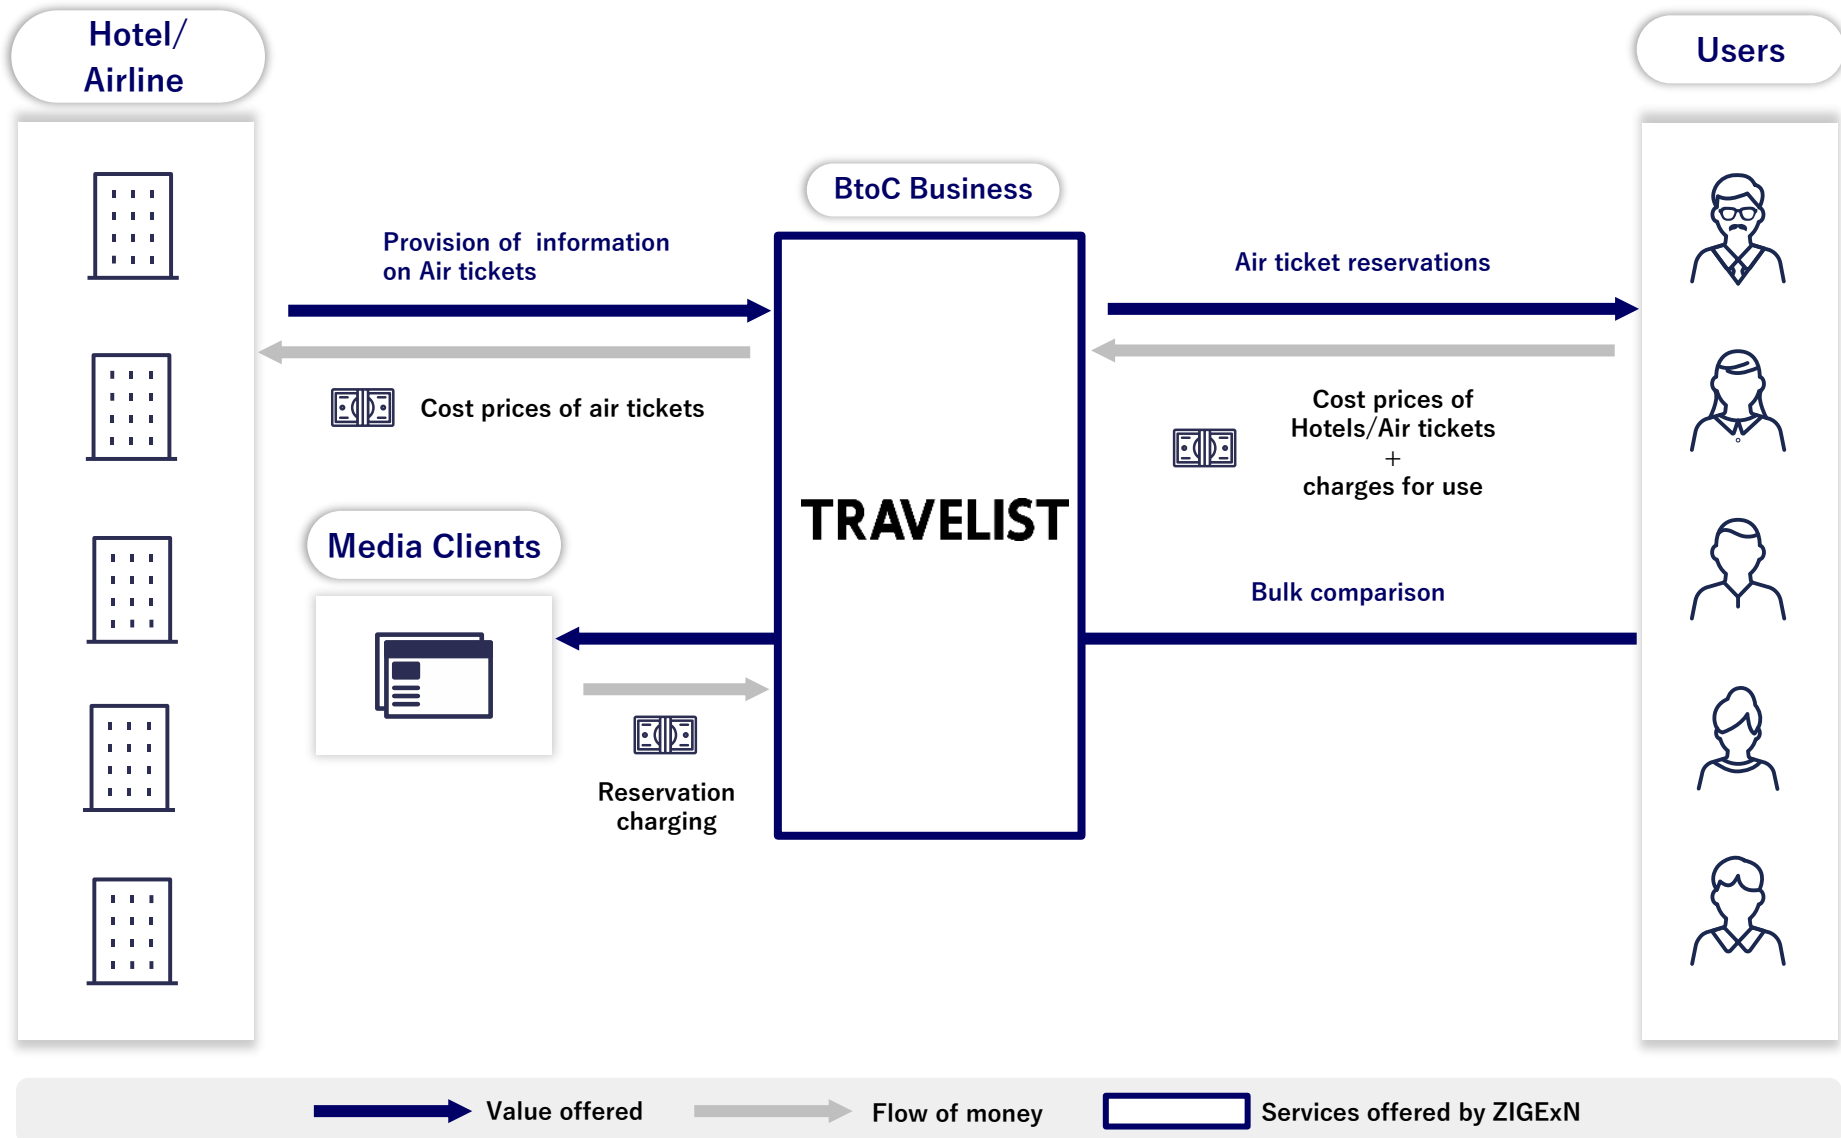

- The “Life Service” comprises businesses that possess extensive databases and either generate stable cash flow or have the potential to do so. This is positioned as a candidate for future core businesses and as a foundation for management resources.
- We have three types of business model: aggregated platform, specialized platform, and system development/offering.

Life Service segment: Business model -B2B Travel-

Life Service segment: Business model -B2C Travel-

2

Competitive Advantage

Sources of strength (1): Matching Technology

- We quickly build clients and users contact points and have **collected and analyzed information on both for over ten years.**
- We then collect and compile more detailed information by also focusing on alliances with individual companies. This results in successfully establishing highly precise matching technology that promotes user behavior (assembling and moving) on a database-driven basis.

Clients

① Major media clients

⇒ **Quick establishment of user contact points** via alliances

② Individual corporate clients

⇒ **Accumulation of detailed information** via direct contracts with individual corporate clients

SEO, advertising, algorithm formation,
UI/UX design, app development, etc.

Quick and detailed collection of
clients and user information for
highly precise matching technology

Users

Ascertain user information based on enormous case database

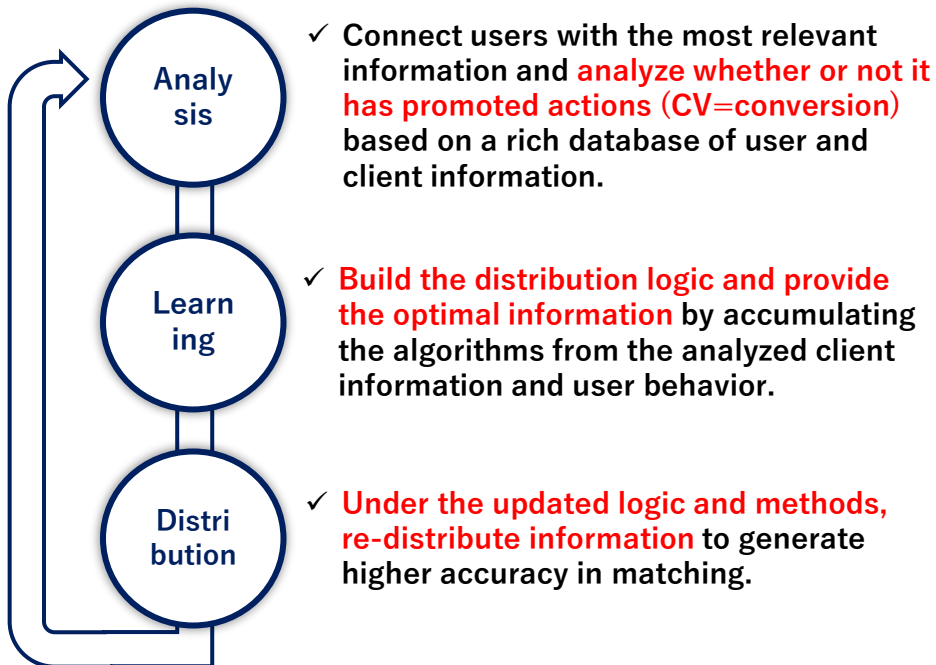

- Individual attributes
- devices,
- in-flow routes,
- behavior history, etc.

Sources of strength (1): Matching Technology -Specific Example-

- Matching technology is the ability to provide users with the **most appropriate information to encourage them to take action**.
- Establish a cycle of **analysis, learning, and distribution to generate highly accurate matching** from a rich and unique database
- Operating multiple platforms enables us a rapid lateral expansion of various knowledge and best practices in strategies.

Specific Example of Matching Technology

Example (1) Cycle of Analysis, Learning, Distribution

Example (2) Beauty industry

From a specialization in specific fields, we analyze the needs of users and clients to achieve highly accurate matching from a unique and extensive database.

Sources of strength (2): M&A -ZIGExN Value Integration (ZVI)-

- Established our unique and highly replicable PMI methodology called "ZVI (ZIGExN Value Integration)" based on the extensive M&A experience, various knowledge and resources such as PMI personnel.
- We achieve performance improvements for the target companies by finding opportunities with our unique sourcing approach, identifying the challenges of target companies, determining the added value we can bring, and leveraging our strengths in matching technology, sharing our management know-how, and providing personnel support.

Process of ZVI (ZIGExN Value Integration)

Sources of strength (2): M&A

- Example of improvement through ZIGExN Value Integration (ZVI)-

- Identifying opportunities for marketing improvement in M&A target companies, such as **enhancing the power to attract users and CVR (conversion rate)** and achieving performance improvement in group companies by **leveraging matching technology which is our strength.**

Example of improvement through ZVI : Vertical HR REJOB

Sources of strength (2): M&A

- Example of improvement through ZIGExN Value Integration (ZVI)-

- Identifying opportunities for marketing improvement in M&A target companies, such as **enhancing the power to attract users and CVR (conversion rate)** and achieving performance improvement in group companies by **leveraging matching technology which is our strength**.

Example of improvement through ZVI : Living Tech renovation business

Sources of strength (2): M&A -Extensive Experience-

- ZIGExN has conducted a total of 32 M&A transactions since going public. The company has continuously conducted M&A across a range of industries and business models.
- 30 out of 32 deals are 100% M&A; more than 40 services acquired through M&A.

List of M&A companies (major deals are listed except for those that were not disclosed or closed)

The 32nd case

Sources of strength (2): M&A - Payback period -

- Regarding the payback period, in addition to the acquisition at a fair price, the PMI, which leverages our strengths, has accelerated business growth, resulting in a relatively early payback period of approximately 3 to 6 years.

Payback period for each deal (payback period, EBITDA basis)

(Unit: years)

Note 1: The graph includes not only projects where investments have already been recovered, but also projects where the investment is expected to be recovered, calculated based on conservative assumptions. Sanko Ad, APW and etc, which recorded impairment losses on goodwill, were excluded.

Note 2: Payback period is calculated based on EV (enterprise value) at the time of the M&A activity divided by cumulative EBITDA.

Note 3: The size of the bubble represents the size of the EV (enterprise value) at the time of the M&A activity.

Note 4: M&A deals within the last one year were excluded.

3

Growth Strategy

Financial forecast for FY2026/3

- For FY2026/3, we anticipate stable growth centered on Vertical HR and **plan a revenue and profit growth**.
- Profit margins are projected conservatively, taking into account factors such as expenses from business withdrawals, business investments, M&A-related costs, and the impact of non-core businesses, among other factors

Revenue

28,000M yen
(YoY: 110%)

EBITDA

7,430M yen
(YoY: 105%)

Operating income

5,880M yen
(YoY: 104%)

(yen in millions)	FY2025/3 Results	FY2026/3 Forecast	YoY
Revenue	25,450	28,000	110%
● Vertical HR	10,575	12,000	114%
● Living Tech	6,089	7,000	115%
● Life Service	8,786	9,000	102%
EBITDA (Note)	7,084	7,430	105%
Operating Income	5,657	5,880	104%
Net income attributable to owners of the parent company	3,872	4,020	104%
Basic earnings per share (EPS)	38.13	40.20	105%

Vertical HR

Expect high growth driven by the stable growth of existing businesses and the smooth PMI centered around Ties and others.

Living Tech

Expect a steady performance growth through product improvements in existing businesses and the advancement of PMI in acquired businesses.

Life Service

Expect stable growth in the travel domain and turnaround of low-margin businesses.

Note: EBITDA = operating income (loss) + depreciation and amortization + impairment losses + loss on retirement of non-current assets and revaluation - gain on bargain purchase

Progress of the 2nd Medium-term Management Plan - Consolidated Financial Results and Indicators-

- Although changes in the product mix have run their course, the expansion of performance in high-unit-price businesses, particularly in the job placement business, contributed to an increase in the unit price per client. On the other hand, the average was pushed down by progress in new client development, and the target was not achieved. Going forward, the company aims to increase unit prices per client in line with the improvement in value provided.
- In terms of the number of corporate clients, new client development and new M&A contributed. Going forward, we will continue to maintain stable expansion of its small- and medium-sized corporate base, while aiming for discontinuous growth through new M&A.

Projected trends in consolidated revenue
(Unit: yen in millions)

Projected trends in the number of corporate clients and unit price per client
(Unit: company)
(Unit: yen)

Progress of the 2nd Medium-term Management - Vertical HR Performance and Indicators -

- In Vertical HR, the main objective of the 2nd Mid-term Plan is **to become Z CORE (a core business with revenue exceeding 10 billion yen) ahead of schedule.**
- Progress has been made in accumulating PMI know-how and operational knowledge in the area-specific HR business, particularly in Ties.
- In the future, we will strengthen lateral collaboration as Vertical HR, connecting it to the development of our business model and achieving synergy among group companies.

Projected trends in VHR revenue

(Unit: yen in millions)

Expected to achieve Z CORE (mainstay business with revenue exceeding 10B yen) ahead of schedule

Projected trends in number of clients and unit price per client (VHR)

(Unit: company)

(Unit: yen)

Note: The graph is for illustration purposes only and does not guarantee future trends.

Progress of the 2nd Medium-term Management - Living Tech Performance and Indicators -

- In Living Tech, although the company was able to achieve a year-on-year increase in revenue, it still faces challenges to achieve 10 billion yen in revenue.
- The company aims to increase its growth rate through a combination of organic and inorganic growth by improving products and diversifying value offerings in existing businesses, as well as by promoting M&A.

Projected trends in LT revenue (Unit: yen in millions)

Projected trends in number of clients and unit price per client (LT) (Unit: company) (Unit: yen)

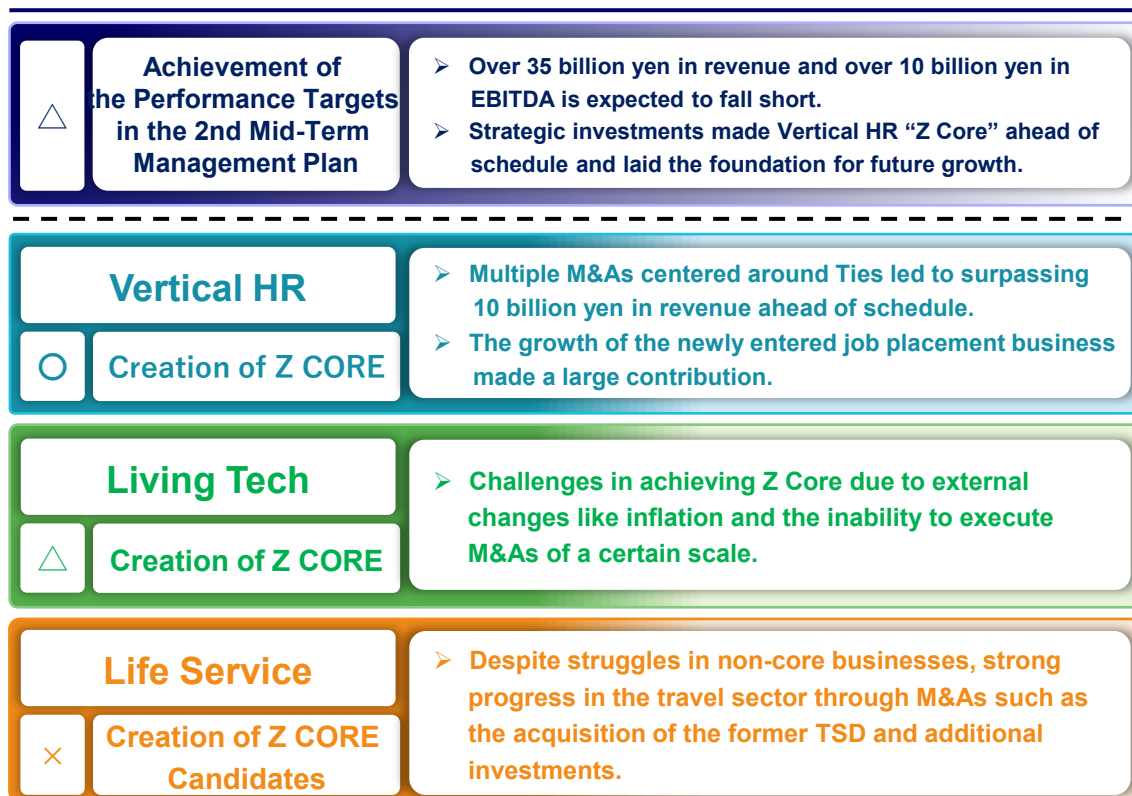

Note: The graph is for illustration purposes only and does not guarantee future trends.

Progress Evaluation of the 2nd Mid-Term Management Plan & Future Strategy

- Due to factors such as challenges faced by Living Tech from both internal and external conditions, as well as the impact of non-core businesses within Life Service, **the performance targets of the 2nd Medium-Term Management Plan (over 35 billion yen in revenue and over 10 billion yen in EBITDA) are expected to fall short.**
- On the other hand, the successful execution of the roll-up strategy through M&A and PMI **has led to making Vertical HR “Z CORE” ahead of schedule. In addition, strategic investments in the travel sector, aligned with macroeconomic trends, have contributed to the establishment of a business foundation that will drive future growth.**

Progress Evaluation

Future Strategy

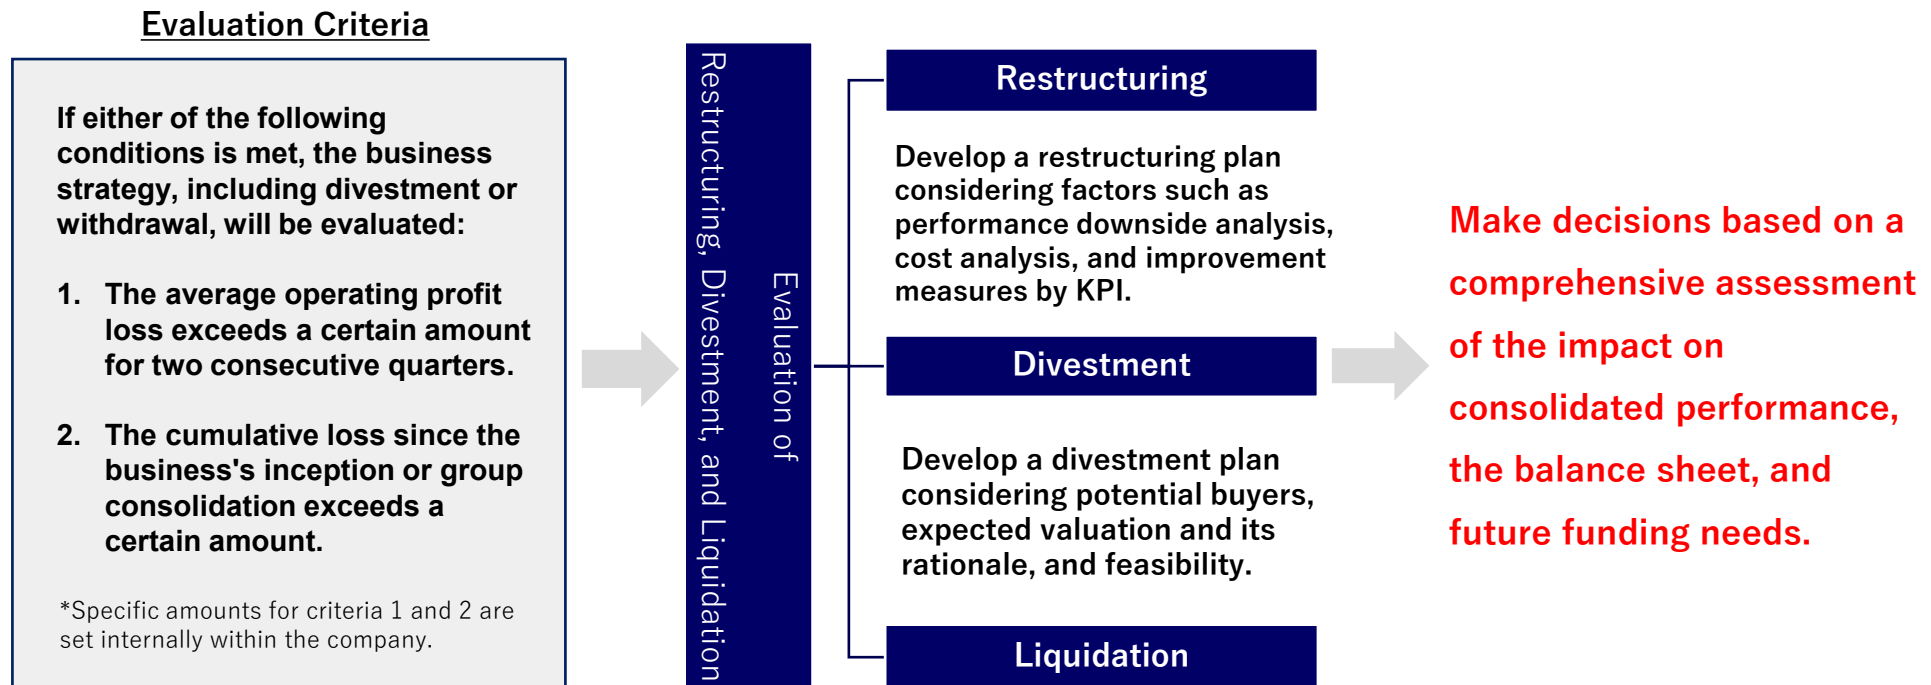

- Continue to pursue organic growth in existing businesses and inorganic growth through M&A.
- Aim for further growth through horizontal expansion and focus on Ties.
- Execution of roll-up through M&A
- Aim to accelerate business expansion not only in the real estate sector, but also in the residential living sector.
- Execution of growth investments in the core travel business.
- Improvement of profitability in non-core businesses and portfolio rationalization.

Note: Z Core refers to core businesses with revenue exceeding 10 billion yen.

Divestment Strategy

- Based on specific quantitative criteria, SBUs that do not meet the standards will undergo evaluation for restructuring, divestment, or liquidation.
- The business officers will first develop a restructuring or divestment plan, and based on a comprehensive assessment of its impact on consolidated performance, the balance sheet, and future funding needs, the business strategy will be decided.
- Scaling Down the Nursing Care Sector: While MIRAxS initially struggled with its first job placement business, which was also a turnaround project, it led to the accumulation of valuable know-how. **This know-how subsequently contributed to the business operations and roll-up strategy of its later job placement business.** Having sufficiently benefited from achievements beyond mere economic returns, **the company now plans to scale down this sector. There is no impairment risk.**

Divestment Strategy

Vertical HR: Progress Evaluation and Future Strategy(1)

- Building on its traditional strengths in platform operations and digital marketing, and **incorporating newly acquired capabilities in job placement business management, the company plans to introduce a job placement business model into its existing job search platform.**
- Regarding the billing model, the Company will promote a shift to a model that **is more conscious of "results" for clients.**

Business Model Optimization

With the accumulation of operational know-how in the job placement business, efforts are underway to introduce a job placement business model into the job search platform.

Vertical HR: Progress Evaluation and Future Strategy(2) - Roll-Up Strategy -

- The number of human resource-related companies continues to grow and is expected to continue to grow in the future due to increased demand for acquiring human resources and securing resources.
- Based on the know-how of M&A and business growth in the high-probability-of-success VHR domain, we will further accelerate roll-up M&A to achieve domain expansion and the enhancement of support functions.

Number of establishments subject to VHR roll-up (Number of fee-charging employment agencies)

Number of establishments subject to VHR roll-up (Number of worker dispatch offices)

Note: Source: Ministry of Health, Labour and Welfare, "Report on Employment Placement Business," Ministry of Health, Labour and Welfare, Employment Security Bureau, Supply and Demand Adjustment Project Division, Ministry of Health, Labour and Welfare.

Vertical HR: Progress Evaluation and Future Strategy(3)

- **M&A of URG, a company that operates job placement and RPO (Recruitment Process Outsourcing) services, with major manufacturers and consulting firms as its primary clients.**
- Through workforce expansion and enhanced training, the company aims to expand the client base of the RPO business and grow the job placement business by leveraging Ties' operational know-how.
- At Ties, **the goal is to accelerate growth by improving labor productivity, expanding business domains, and strengthening URG's RPO capabilities.**

Acquisition of URG by Ties

Company Name	Ultimate Resources Group Inc.
Overview	Operates job placement and RPO businesses. Key Feature: Maintains strong relationships with major clients, including large manufacturers and global consulting firms.
Performance	FY2025/4 (Forecast) Revenue: 655 million yen Operating Profit: 42 million yen
Acquisition Amount	400 million yen
Acquisition Date	May 22, 2025

Growth Strategy of Ties

Strategy 1: Improving Labor Productivity

By improving operations through AI utilization, the goal is to enhance labor productivity per employee.

Strategy 2: Expanding into New Sectors

In addition to the existing manufacturing sector, it will enter areas with strong relevance to job seekers' attributes through M&A, and it will seek area expansion as well.

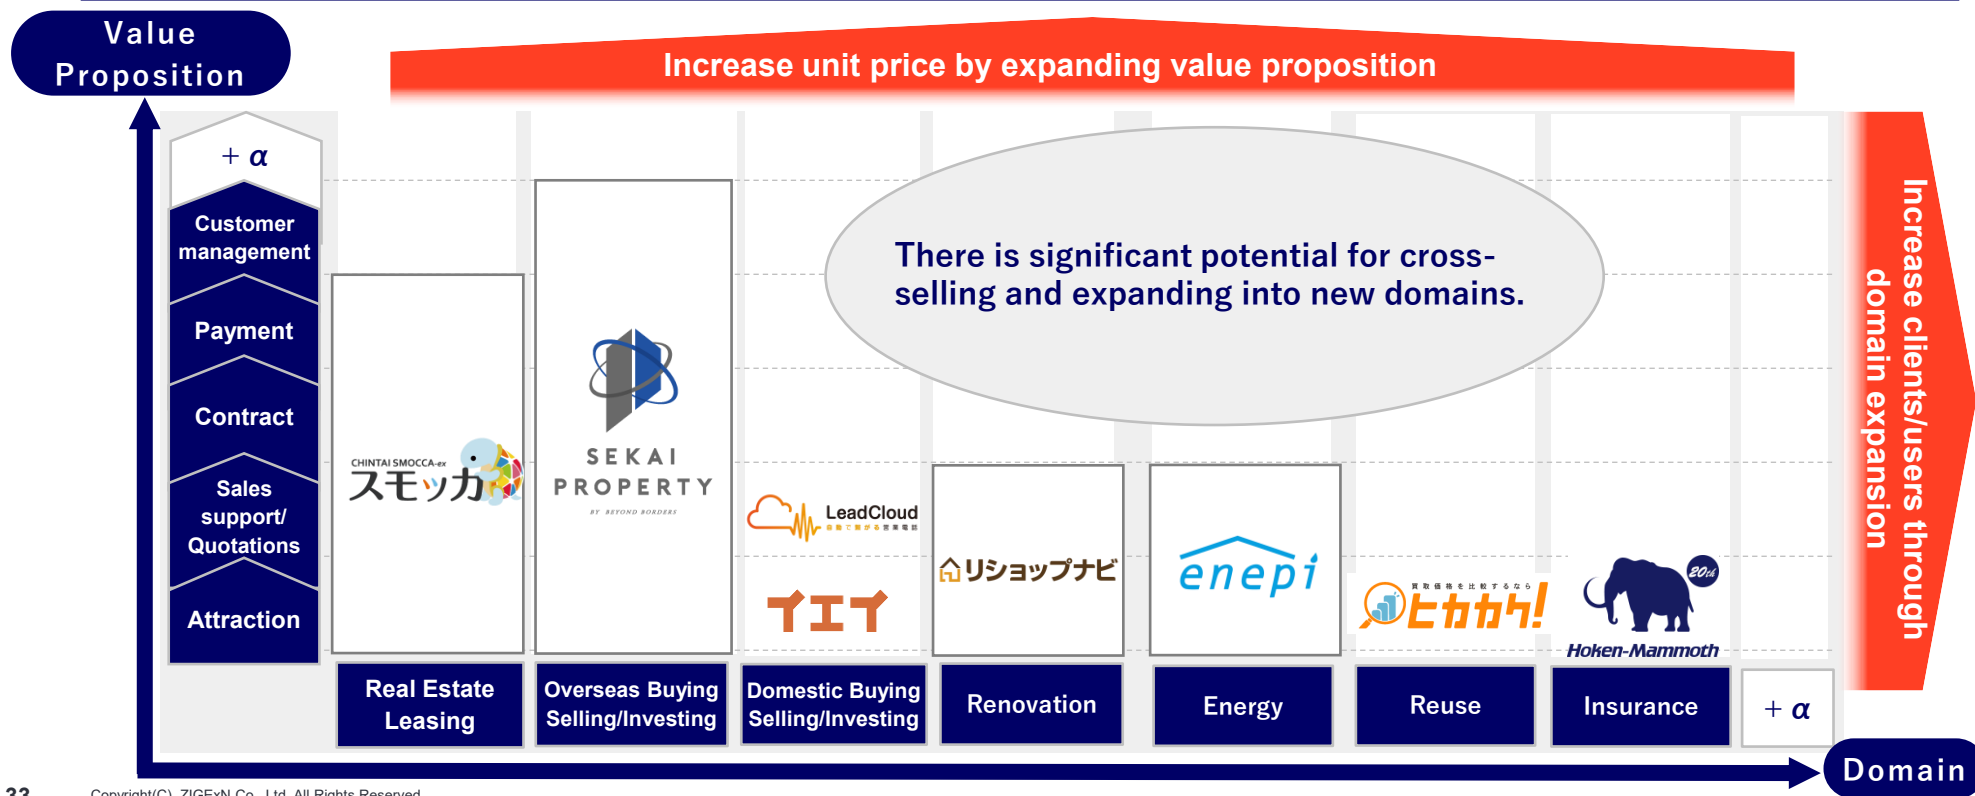

Strategy 3: Business Model Optimization

In addition to the existing job placement model, the company aims to diversify its business model by incorporating RPO and other approaches.

Living Tech : Progress Evaluation and Future Strategy (1)

- Aim for growth through **expansion of business domains centered on the platform models, the business model expansion, and enhancement of the value provided through cross-selling.**
- In terms of value enhancement, some businesses have **realized the provision of added value other than the “user attraction”** function through the implementation of new functions, etc.
- In terms of cross-selling and expansion into new areas, we **expanded its product lineup by expanding its remodeling category and entering the real estate trading, reuse, and insurance domains.**

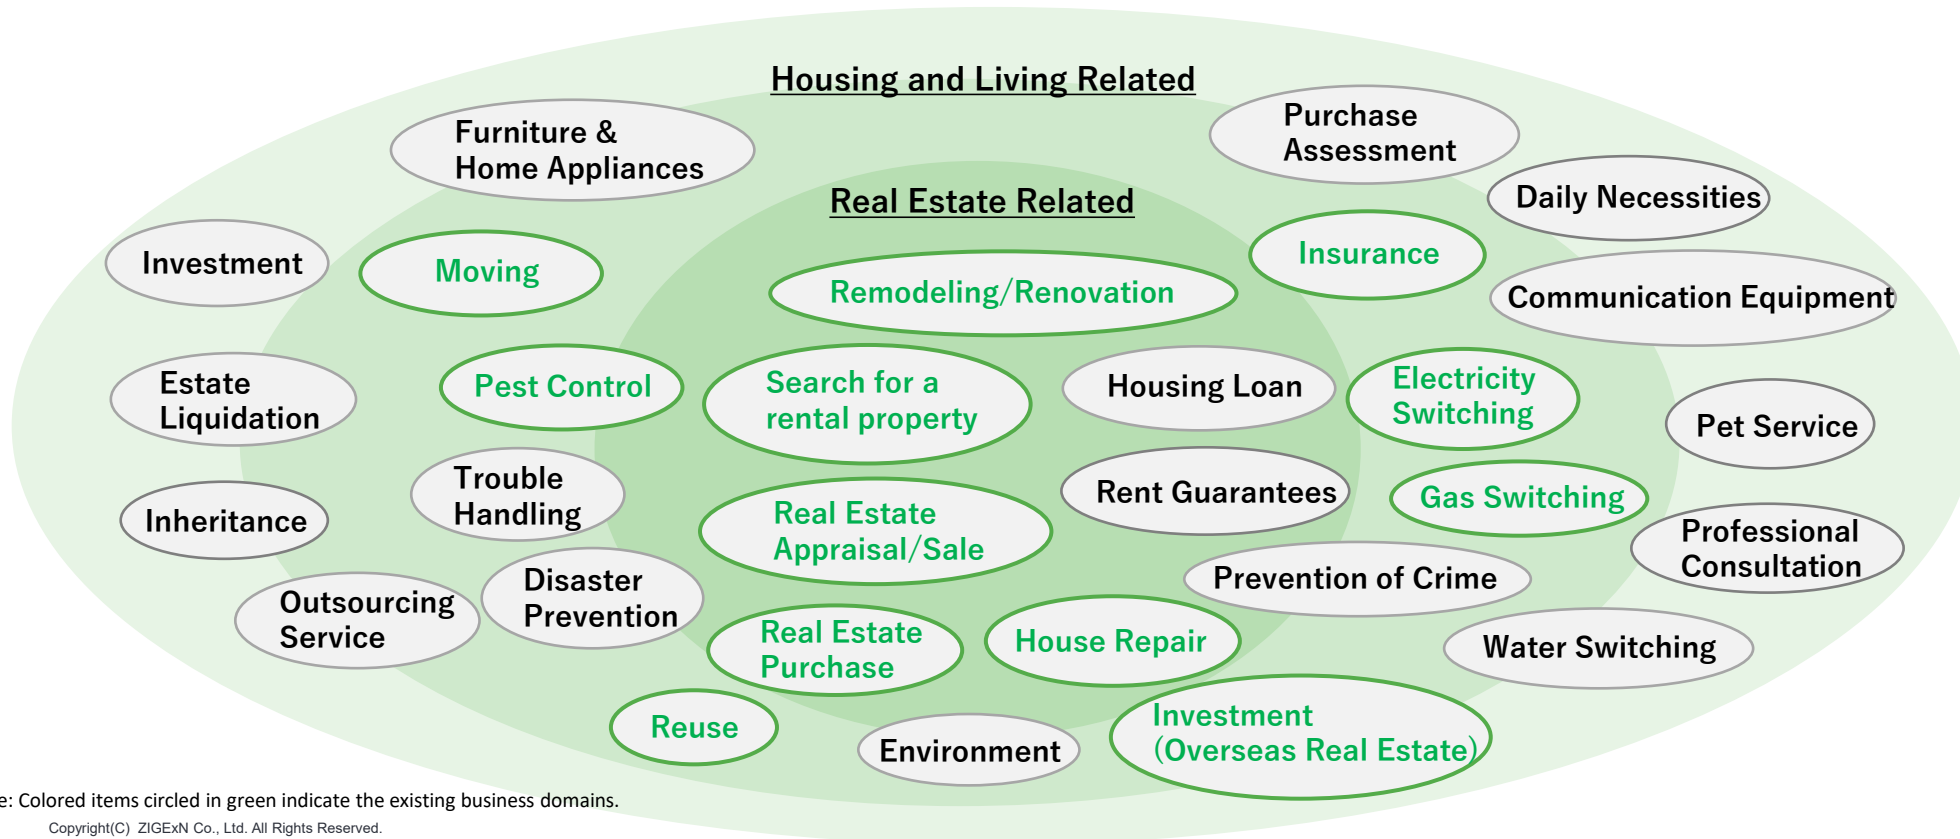

Enhancing the Value Provided to the Client Side

Living Tech : Progress Evaluation and Future Strategy (2)

- Our service users have a wide variety of needs, and by expanding our services to address these needs, we aim to improve profitability and profit margins through cross-selling.
- Cross-selling between gas switching and electricity switching services in the energy domain, as well as the expansion of products such as reuse and insurance, were also achieved.
- Going forward, **the company will continue to capture user needs not only in the narrowly defined real estate domain, but also from a broader perspective, with the aim of raising the growth rate.**

Improvement of value proposition to the users

Life Service: Progress Evaluation and Future Strategy

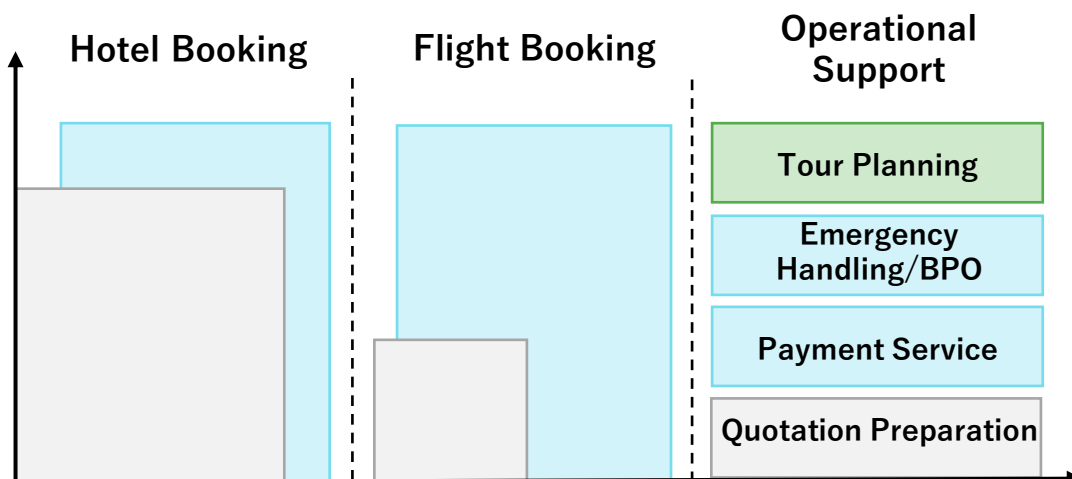

- Amid macro trends in the travel industry during the 2nd medium-term management plan period, which began during the COVID-19 pandemic, **we acquired former TSD** in February 2023, **strengthening flight booking capabilities and expanding offerings such as BPO and payment services.**
- As a follow-up to its strategic investment, **we announced the acquisition of USAEL, a provider of DX support systems for the travel industry with a focus on tour planning.**
- We will continue to invest in the travel sector through both organic and inorganic growth initiatives.

New M&A Overview: USAEL

Company Name	USAEL Co.,Ltd.
Overview	Provides DX Solutions for the Travel Industry Key Feature: End-to-end system with a strong focus on tour planning, covering everything from procurement to sales.
Performance	FY2025/3 Revenue: 100 million yen, Operating Profit: 45 million yen
Acquisition Amount	325 million yen
Acquisition Date	By the end of June 2025

Strategic Investment in the Travel Sector -Service Expansion through M&A-

Review of M&A and Future Strategy (1)

- Since the announcement of the 2nd medium-term management plan, **there have been 14 investment deals with a total investment of approximately 6.6 billion yen**. While the majority of the deals are smaller, under 1 billion yen, **the contribution to performance from investments over 1 billion yen (such as Ties and the former TSD) has been particularly significant**, supported by smooth PMI execution.
- When comparing the expected EPS if the amount invested in M&A were allocated to share buybacks with the EPS for FY25/3, which is higher, it is recognized that **focusing on M&A is more likely to lead to an increase in shareholder value than share buybacks**.
- We will continue to take an active stance on M&A and strive to enhance long-term shareholder value.

M&A Deals and Scale

- ✓ Period: April 2021 – May 13, 2025
- ✓ Total Investment Amount: Approx. **6.6** billion yen
- ✓ Number of Investments: **14**
 - ✓ 2 investments over 1 billion yen
 - ✓ 1 investment between 500 million yen and 1 billion yen
 - ✓ 11 investments under 500 million yen

⇒ **Focusing on small and medium-sized deals, an average of 3 M&As were executed per year.** While investments exceeding 1 billion yen (Ties, former TSD) were also made, the contributions from these investments to the performance have been particularly significant.

Contribution to Shareholder Value from M&A during the 2nd Medium-Term Management Plan Period (Unit: yen)

Focusing on M&A as a growing company, rather than share buybacks, leads to greater shareholder value creation.

Note: The assumed EPS is shown based on the average stock price of 464 yen from the period after the announcement of the 2nd medium-term management plan (2021/4-2025/3), assuming the share buybacks corresponding to the investment amount, excluding recent M&A and some merged businesses within the last year.

Review of M&A and Future Strategy (2)

- While related to updates in the financial policy, **with the expansion in the number and scale of potential projects, securing agile M&A funding has become even more critical.**
- While continuing to leverage existing strengths, characteristics, and unique capabilities in M&A, efforts will be made to enhance personnel and operations within the current M&A department. Additionally, **by establishing M&A functions within key group companies, a structure will be built to enable continuous M&A execution across multiple domains, aiming to achieve accelerated revenue growth.**

Review of the Internal and External Environment Surrounding M&A

While maintaining a disciplined approach to M&A, securing flexible standby fund is essential to ensure both the quality and volume of M&A activities.

- ✓ The number of potential **deals under consideration is increasing**, driven primarily by the following factors:
 - ✓ An increase in M&A intermediaries
 - ✓ Expansion of the company's M&A scope
 - ✓ Strengthening of the internal M&A team
- ✓ A wide range of opportunities is under consideration, including global and publicly listed company deals, **with a trend toward larger deal sizes.**
- ✓ On the other hand, **an increase in M&A buyers has led to higher valuations** in certain cases.

Characteristics of the Company's M&A and Future Organizational Policy

Key Characteristics

- ✓ Execute across multiple domains, not limited to a single or a few domains.
- ✓ Executing M&A with Disciplined Standards, Focusing on "Fair Valuation"
- ✓ Achieving Post-Acquisition Growth through "Unique PMI (ZVI)"
- ✓ Focusing on "Investment Recovery Speed" and "Return on Investment"
- ✓ Executing a Series of Multiple Deals Continuously

⇒ By strengthening the existing M&A department and **establishing M&A functions in key subsidiaries, the company aims to build a system that enables continuous M&A execution across multiple domains.**

Review of M&A and Future Strategy (3)- M&A(1)-

- In the 11 years since its listing, the company has made consecutive acquisitions at an average rate of more than three per year. The cumulative number of acquisitions has reached 32.

Number of M&A transactions carried out

Note: The two projects of USAEL and Ultimate Resources Group, Inc. are included in the strategic investment amount of FY25/3 and therefore counted as FY25/3 implementation projects.

Review of M&A and Future Strategy (3)- M&A(2)-

- ZIGExN's M&A is a model where cumulative FCF builds up because the EBITDA growth rate is high due to PMI and the model is basically to continue to hold the company as an operating company (continuous investment at compound interest). In addition, the connected and adjacent TAMs will continue to expand, and the room for growth will continue to expand.
- Using FCF earned from past M&A deals as a source of funds, we intend to build a structure where each subsidiary takes the lead in M&A and increase both the number and scale of M&A deals in the future.

M&A Results Cumulative EV vs. Cumulative EBITDA

Note 1: EV refers to business value.

Note 2: Only logos of major businesses acquired through M&A during the year are shown.

Copyright(C) ZIGExN Co., Ltd. All Rights Reserved.

Review of M&A and Future Strategy (4)- Progress of PMI -

- Across all five companies acquired in FY23/3 (comprising four businesses in the VHR domain and two in other domains), we recorded **an average EBITDA growth rate of 155.3% for the VHR domain and 160.5% for other businesses over the two years post-acquisition**, demonstrating the positive effects of PMI.
- We are progressing at **an average EBITDA growth pace of 2.5x over the two years** since the acquisition year of FY23/3.
- Established PMI models are in place for the VHR, Sales Promotion platform, and Travel domains.

VHR business acquired in FY23/3
Average EBITDA growth rate (Note 1)

Note 1: A total of four businesses acquired in FY23/3: Kensetsu-JOBS, Beyond Borders (Real Estate Works), Awesome Agent, and Ties.
 Estimated from EBITDA for the single fiscal year at the time of acquisition. CAGR of approximately 2 years after acquisition.

Other businesses acquired in FY23/3 Average
EBITDA growth rate (Note 2)

Note 2: Total of two businesses acquired in FY23/3: BEYOND BORDERS (SEKAI PROPERTY), Inc. and TSD, Inc.
 Estimated based on EBITDA for the single fiscal year at the time of acquisition. CAGR of approximately 2 years after acquisition.

Revenue 1 (number of clients focused) vs Revenue 2 (number of large companies and its unit price-focused)

Revenue 1

3,720Myen

(YoY +8.4%)

Revenue 2

3,194Myen

(YoY +10.2%)

- Revenue 1 (number of clients focused) primarily consists of in-house platforms such as REJOB.
- Revenue 2 (number of large companies and its unit price-focused) primarily consists of the job placement business such as Ties.
- Revenue 2, **although impacted by non-core businesses, grew steadily due to the growth of Ties and others. Revenue 1 steadily expanded, thanks to contributions from new M&A.**
- We aim to achieve both stability and growth by focusing on revenue 2 that emphasizes unit price per client, built upon a solid revenue generation foundation.

Revenue classification

Revenue 1

(number of clients focused)

Vertical HR : REJOB, Awesome Agent

Living Tech : Smocca (in-house platform), Renovation Business,
Hoken Mammoth.

Life Service : BrainLab (ID, Option), Apple World (Wholesale), etc.

Revenue 2

(number of large companies and its unit price-focused)

Vertical HR : Ties, Kensetsu-JOBs, Real Estate Works

Living Tech : Smocca (aggregation)

Life Service : BrainLab (SI), Comparison platform (FC, Marriage, etc.),
APW (Travelist), HR Aggregation platform, etc.

Other business situation -Life Service: Travel domain-

- **Macroeconomic Environment:** While leisure travel demand remains on a slow recovery due to factors such as the weak yen, the demand for overseas business travel remains solid.
- **Micro Initiatives:** In addition to strengthening sales of new products such as hotels and overseas airline tickets released in the previous term, **efforts will focus on expanding new offerings like airport transfers and group arrangement services, developing new customers, particularly outside the Kanto region, and continuously improving the UI/UX of products to achieve further business growth.**
- Based on the growing domestic market share, an overseas branch office was established to promote overseas expansion.

Number of Corporate Clients

(Companies)

Note 1: The client count refers to active corporate clients that have generated revenue in the past year.

Note 2: TSD Inc. joined the group in FY23/3 Q4. TSD has been merged with APW as of October 2024.

Note 3: Trends in Revenue and Number of Japanese Outbound Travelers (Index) represents the correlation with the wholesale business revenue in the travel sector, which is closely linked to outbound travel. Estimates are used from FY25/3 Q3 onwards.

Note 4: The number of Japanese outbound travelers is sourced from the Immigration Services Agency's "Immigration Control Statistics" and JTB Research Institute's "Outbound Trends of Japanese Travelers."

In addition to micro measures, Macro environment is rapidly improving

Macro environment is stable, micro measures contribute to sustainable growth

5

Financial Policy

Revision in Financial Policy ①

- Background for the Change: (1) The TSE requires a **minimum free float ratio of 35% for companies listed on the Prime Market**, making it necessary to maintain a sufficient level. (2) **Factors such as the Company size, consideration of large-scale M&A both domestically and internationally, rising borrowing costs, and the unpredictability and difficulty in controlling the timing of M&A.**
- Key Changes: (1) Reframing the "upper limit of share buybacks" for the following fiscal year as an "additional shareholder return," **thereby allowing for options other than share buybacks.** (2) Determining the final return amount based on a comprehensive assessment, **including maintaining an appropriate level of cash and cash equivalents.**
- By revising the policy, we aim to enhance its medium- to long-term corporate value by simultaneously achieving **greater flexibility in shareholder return methods, avoiding excessive cash and cash equivalent holdings, and ensuring a stable and agile funding source for growth investments.**

Revision in Financial Policy

Approach to Optimal Cash and Cash Equivalents Level

Formula

Optimal Cash and Cash Equivalents Level =
 (M&A war chest + working capital) – borrowing capacity

(1) M&A war chest: Approximately 20 billion yen (based on background for change②).

(2) Working Capital: The total of two months' worth of monthly sales and deposits (approximately 9 billion yen).

(3) Borrowing Capacity: Calculated based on the Ratio of equity attributable to owners of the parent company to total assets (≡ equity ratio) of 40% or more (approximately 13 billion yen).

⇒ If the cash and cash equivalents fall short of the optimal level, a portion will be retained as cash on hand instead of allocating the entire amount to shareholder returns.

Current

Net income attributable to owners of the parent company
 (-) Strategic investment amount
 (-) Shareholder benefit expenses
 (-) Total dividends
 = Upper limit for share buybacks in the following period

Revised

Net income attributable to owners of the parent company
 (-) Strategic investment amount
 (-) Shareholder benefit expenses
 (-) Total dividends
 = Additional shareholder return for the following period

Revision in Financial Policy ②

- A new policy will be introduced to **cancel treasury stocks** if they exceed 10% of the total number of outstanding shares, **aiming to reduce the ratio to around 10%.**
- Instead of canceling all treasury stocks held, **a portion is expected to be used for incentive programs or as consideration in M&A transactions.**
- In line with this policy, we have announced the **cancellation of 1,700,000 shares of treasury stock, representing 1.52% of the total number of outstanding shares.**

Policy on Cancellation of Treasury Stock

Cancellation Policy

Cancel treasury stock until the number of shares held as treasury stock reaches approximately 10% of the total number of outstanding shares.

Treasury Stock Cancellation (Announced on May 13, 2025)

Cancellation Date	May 23, 2025
Type of Stocks to Be Cancelled	Common Stock
Number of Treasury Stocks to Be Cancelled	1,700,000stocks (Percentage of Total Issued Shares: 1.52%)

Policy on the Utilization of Treasury Stock

M&A

- ✓ Share exchange and Share Issuance

Incentives

- ✓ Stock-based compensation for executives and key personnel, and response to the exercise of stock acquisition rights
- ✓ Incentives for employee stock ownership plans

Fundraising

- ✓ Issuance of shares in the event of large capital needs or the necessity to strengthen the financial foundation through capital enhancement.

Financial Strategy and Strategic Investments(M&A)

Strategic investment

2.02B yen

(Previous year:
240 million yen)

Dividend forecast

11.0 yen

(Previous year:
10.5 yen)

- The amount of additional shareholder return for the following fiscal year will be determined by subtracting the sum of strategic investments, total dividends, and shareholder special benefit expenses from the current fiscal year's net income, taking into account the optimal level of cash and cash equivalents.
- Share buyback: **Maximum 700 million yen (maximum 1.5 million shares, 1.49% of total shares outstanding (excluding treasury stock))**.
- Cancellation of treasury stock: Set **at 1.7 million shares (1.52% of total shares outstanding)**.
- Dividend: Dividend **increase to 11.0 yen** per share is planned, considering year-over-year growth in revenue and profits.

Cash flows and shareholder returns

(yen in millions)	FY2024/3	FY2025/3	FY2026/3
Net income attributable to owners of the parent company	3,800	3,872	
- Strategic investment	244	2,019	
- Shareholder Benefit Expenses	NA	39	
- Total dividends	676	1,054	
Dividend per share (ordinary dividend)	5.0 yen	7.5 yen	11.0 yen
Limit for additional shareholder return (special dividend)	1.5 yen	3.0 yen	TBD
Limit for additional shareholder return (Share Buybacks)	0	2,800	700

Note 1: The amounts of strategic investments refer to the amounts of investments we made to acquire management resources with a highly asset-like nature, such as M&As and capital tie-ups.

Note 2: We could flexibly revise the policy if conditions in markets, financial conditions, etc. differ significantly from our assumptions.

Note 3: The strategic investment amount includes professional fees for deals that were not completed. The strategic investment amount of FY2024/3 includes the investments in shares of listed companies for FY2025/3. In addition, the FY2025/3 strategic investment amount includes projects already announced by 5/13/2025.

Balance sheet condition

Goodwill-to-equity
ratio

0.5x

Total amount of
goodwill

10,872M yen

- Financial health remained solid with the goodwill-to-equity ratio of 0.5x and the ratio of equity attributable to owners of the parent to total assets at 53.2%, which are within the Company's financial standards and safe.

Balance Sheet (B/S)

Total Assets (liabilities and equity): **37,573M yen**

Goodwill-to-equity ratio: 0.5x	
Goodwill 10,872M yen	Equity 19,951M yen

Breakdown of Goodwill by CGU

10,872M yen

REJOB	1,756M yen
Ties	1,393M yen
APW	1,165M yen
Life Support	1,108M yen
Brain Lab (CP)	1,042M yen
Partner Solution	1,011M yen
Others	3,397M yen

Note 1: Same cash generating unit (CGU) as the one used for goodwill impairment testing

Note 2: Life Support refers to renovation and energy businesses such as the former IACC. The former IACC was merged with ZIGExN in July 2020. Additionally, TSD has been merged with APW as of October 2024.

Note 3: BrainLab (CP) refers to the Career Plus system business for human resource introduction companies.

Note 4: Partner Solution refers to the comparison media business acquired from Basic Inc. through a business transfer.

Goodwill Impairment Testing

- A total of 17 CGUs comprising goodwill were tested for impairment by comparing the carrying amount with the recoverable amount in accordance with IFRS.
- No impairment losses are recognized as **the recoverable amounts exceed the carrying amounts significantly** in the major CGUs with significant goodwill amounts.
- As of the record date of December 31, 2024, we conducted our impairment test for the current fiscal year. While the major CGUs presented no issues, we reassessed the valuation of non-core and small-scale CGUs included in "Other."

Goodwill

Total amount of goodwill :
10,872M yen

REJOB	1,756M yen
Ties	1,393M yen
APW	1,165M yen
Life Support	1,108M yen
Brain Lab (CP)	1,042M yen
Partner Solution	1,011M yen
Others	3,397M yen

Impairment Testing

Note 1: In impairment testing, the recoverable amount is the value in use or the fair value after subtracting disposal cost, whichever is higher, but the above graph shows a comparison of the book value with the value in use calculated on a cash flow basis in accordance with business plans.

Note 2: In each cash generating unit (CGU), the ratio of the value in use to the book value when the value in use is set to 1 is shown.

Note 3: The base date for the impairment test is the end of December 2024.

Major SDG/ESG Initiatives(1)

- We position efforts in human capital management and sustainability as increasingly vital management challenges, promoting their integration with business strategies

Meaningful work environment

Employee development aimed at creating “UPDATERS”

Updated the training system for the medium to long term, with a focus on onboarding, to support employee development and skill enhancement, creating an environment conducive to employee success. The annual program for new graduate employees has concluded, recognizing new graduate MVPs. This system acknowledges growth achieved with the support of OJT and mentors.

Events were held every month by ZNOW, an organization that promotes company-wide communication. At the end of the fiscal year, an offline company-wide gathering celebrated the achievements of employees.

Eco-friendly corporate and business activities

Responses to CDP

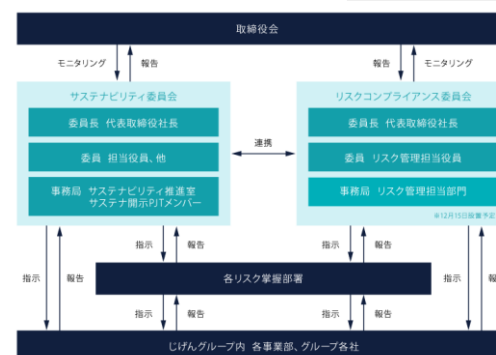

Starting from the fiscal year 2023, we began responding to the international environmental NGO, “CDP”.

The establishment of the Sustainability Committee

Under the monitoring of ZIGExN's Board of Directors, there is a collaboration between the Risk and Compliance Committee and the Environment & Sustainability Committee to address risks associated with environmental sustainability.

It serves as a platform for reporting and consulting with the management team regarding the sustainability of the group, as well as making decisions and reviewing necessary policies and initiatives.

Assessment and disclosure of climate-related risks and opportunities in business activities based on the framework of TCFD (Task Force on Climate-related Financial Disclosure) recommendations.

In addition, from this fiscal year, we have begun efforts to become carbon neutral through the use of non-fossil certificates.

Major SDG/ESG Initiatives(2)

- To realize our hope of “Change people’s lives through interaction with ZIGExN” embedded in our purpose “UPDATE YOUR STORY-For a Better Future”, we provide platforms for connections in various situations.

Diverse active talents

Implementation of alumni

Aiming for the continuous growth of the organization and the promotion of value creation, we held our inaugural alumni gathering.

We conducted lectures for current employees on careers and business, facilitated mutual introductions of diverse talents connected through authenticity, and created business opportunities. These initiatives aim to activate innovation and provide a platform for new connections.

Creation of local communities

Initiatives in Kyoto Prefecture

In 2022, the company established an office in Kyoto City, Kyoto, and operates a 3x3 pro team called "ZIGExN UPDATERS.EXE". In January 2025, we hosted the 3x3.EXE TOURNAMENT KYOTO ROUND, a pro-am 3x3 basketball tournament. University teams from five universities in Kyoto City participated, and ZIGExN took the lead in promoting the excitement of 3x3 basketball in the Kansai region.

Additionally, the activities of "ZIGExN UPDATERS.EXE" and initiatives in the Kyoto office have been extensively covered by the media.

Number of Clients Posting Ads on the Platform of the Mainstay Business

Vertical HR
 Number of clients posting
 ads on the platform

88,172

(YoY: +6.1%)

Living Tech
 Number of clients posting
 ads on the platform

37,270

(YoY: +30.1%)

- Vertical HR: Steady growth centered on REJOB.
- Living Tech: There has been a significant increase due to the new group integration with Hoken Mammoth and reuse business.
- To further expand, we are developing new customers and strengthening sales and marketing.

Vertical HR Number of clients posting ads on the platform

Living Tech Number of clients posting ads on the platform

Note 1: The number of clients posting ads on the platform of Vertical HR includes that of clients posting free ads that may be charged in the future.

Note 2: The number of establishments listed on Living Tech is calculated only for establishments that have made one or more listings during the final month of each quarter, excluding establishments with ongoing free listings.

Note 3: The graph depicting the transition of the above-mentioned establishment numbers includes the transition of establishment numbers before the acquisition of shares in MIRaXS (formerly HITOWA Career Support) and Life Support Div. (formerly I&S Cruise).

Note 4: The number of business establishments listed on Vertical HR has been retroactively revised due to some errors in aggregation.

Trend in the Number of Employees at End of Quarter

- The consolidated number of employees is 898. Although aggressive hiring is underway in the Ties and other businesses, overall performance is stable, partly due to personnel optimization in non-focused businesses.

Number of Employees by Job Function

Note 1: Employees of temporary staffing business in MIRaXS are not included.

Note 2: The product consists of marketing, engineers, and designers. Others consist of business officers, managers, etc. Sales/CS includes sales management.

Note 3: From FY23/3 onwards, sales management will be transferred from other departments to sales and customer service for refinement.

Quarterly Trend of Expense

- Overall, advertising + sales promotion and personnel-related expenses remained stable through appropriate cost control. Expenses are expected to remain at approximately the same level as the current level.

Quarterly trend of expenses

Note: FY21/3 Q2 recorded impairment losses related to goodwill, etc..

Trend of Balance Sheets as at the End of Quarters

Equity attributable to owners of
the parent to total assets

53.2%

Goodwill-to-equity ratio

0.5x

- The percentage of equity attributable to the owners of the parent (the equity ratio in the JGAAP) stood at 53.2% and the goodwill-to-equity ratio was 0.5 times.
- Deposits are primarily attributed to the payment agency business in the travel sector.

Financial Strategy: Shareholder Structure

- Partly due to the introduction of a shareholder benefit program, the ratio of individual investors increased.

Indicator Trends

- EPS : FY25/3 reached a record high due to steady PMI of Vertical HR, especially Ties, and share buybacks.
- ROE : FY25/3 maintains ROE of about 20%. We will continue to strive to maintain and sustainably improve ROE above 20% from a medium- to long-term perspective.

EPS & PER

ROE

Note : FY21/3 recorded a net loss.
